

Christmas and New Year 2020-21 opening Hours

Dear Customer,

As the holiday season approaches Watercare Laboratory services would like to reassure you that we remain open for business.

Courier services during this period have a tendency to be unreliable, and hold-ups of samples in courier depots is quite commonplace. If you expect to require laboratory testing in the next month, please contact us. This is especially important with time critical analyses, particularly microbiological testing.

Mangere, Wellington, Invercargill, Queenstown Labs
